

ICN Nurse Practitioner/Advanced Practice Nursing Network Country Profiles

Introductory Statement

The International Council of Nurses (ICN) Nurse Practitioner/Advanced Practice Nursing Network (NP/APNN) Practice Subgroup and the Core Steering Group (CSG) present the following information submitted by advanced practice nurses describing the NP/APNN roles in their countries.

We are providing these profiles in order to disseminate more widely the available information on the status of advanced practice nursing from respondent countries and within the WHO regions of the world. Please note, however, that this information has not been generated through research carried out by the CSG or ICN.

If you are planning to study or work as an NP or APN in a country other than your own, please seek information from the appropriate authorities in the country to verify education, practice and regulatory requirements.
